Carbohydrate Polymers **20** (1993) 317–319

CONTENTS OF VOLUME 20

Number 1

A model of starch gelatinization linking differential scanning calorimetry and birefringence measurements 1
H. LIU & J. LELIEVRE (Canada)

Biochemical significance of exogenous chitins and chitosans in animals and patients. 7
R. A. A. MUZZARELLI (Italy)

Raw and extruded fibre from pea hulls. Part 1: Composition and physico-chemical properties 17
M.-C. RALET, G. DELLA VALLE & J.-F. THIBAULT (France)

Raw and extruded fibre from pea hulls. Part 2: Structural study of the water-soluble polysaccharides 25
M.-C. RALET, L. SAULNIER & J.-F. THIBAULT (France)

The isolation and characterization of a water extract of konjac flour gum 35
S. A. JACON, M. A. RAO, H. J. COOLEY & R. H. WALTER (USA)

Design of D-glucose analogue of MDP/CM-curdlan conjugate and its immunological enhancement activity 43
Y. OHYA, T. NISHIMOTO & T. OUCHI (Japan)

Evolution of polymer mobility during ageing of gelatinized waxy maize starch: a magnetization transfer ^{1}H NMR study . 51
J. Y. WU & T. M. EADS (USA)

Summaries of UK Patent Applications 61

News and Views 63

Bibliography 65

Book Reviews 75

Number 2

Review Paper
Carbohydrate polymers in desert reclamation: the potential of microalgal biofertilizers 77
T. J. PAINTER (Norway)

Studies on the simultaneous determination of acidic and neutral sugars of plant cell wall materials by HPLC of their methyl glycosides after combined methanolysis and enzymic prehydrolysis 87
B. QUEMENER, M. LAHAYE & J.-F. THIBAULT (France)

Alkali-modification of carrageenans: mechanism and kinetics in the kappa/iota-, mu/nu- and lambda-series 95
M. CIANCIA (Argentina), M. D. NOSEDA (Brazil), M. C. MATULEWICZ &
A. S. CEREZO (Argentina)

Preparation and characteristic properties of 5-methyl pyrrolidinone chitosan 99
R. A. A. MUZZARELLI, P. ILARI & M. TOMASETTI (Italy)

The effect of fructose and water on the glass transition of amylopectin 107
M. T. KALICHEVSKY & J. M. V. BLANSHARD (UK)

Carbohydrate Polymers **(20)** (1993)—© 1993 Elsevier Science Publishers Ltd

Isolation and chemical characterization of water-soluble mixed-linked β-glucans and arabinoxylans in oat milling fractions 115
E. WESTERLUND, R. ANDERSSON & P. ÅMAN (Sweden)

Comparison of the properties of dextran and hydroxyethyl starch substituted with benzene tetracarboxylate in terms of their use in blood transfusion 125
M. L. HUGUET, F. PROUCHAYRET, M. GRANDGEORGE, & E. DELLACHERIE (France)

Effect of oxidative browning of apple pulp on the chemical and enzymatic extraction of cell wall polysaccharides 131
C. E. MISSANG, P. MASSIOT, A. BARON & J. F. DRILLEAU (France)

Site specific binding of calcium ions to anionic chitin derivatives 139
Y. URAKI, T. FUJII, T. MATSUOKA, Y. MIURA & S. TOKURA (Japan)

News and Views 145

Bibliography 147

Book Reviews 157

Number 3

Degradation of arabinans by arabinanases from *Aspergillus aculeatus* and *Aspergillus niger* 159
G. BELDMAN, M. J. F. SEARLE-VAN LEEUWEN, G. A. DE RUITER,
H. A. SILIHA & A. G. J. VORAGEN (The Netherlands)

Variability in starch extracted from taro 169
S. N. MOORTHY, P. K. THANKAMMA PILLAI & M. UNNIKRISHNAN (India)

Effects of pH and DMSO content on the thermal and rheological properties of high methoxyl pectin–water gels 175
M. WATASE & K. NISHINARI (Japan)

Conformational changes of hyaluronates with partial palmitoylation and the adsorption structures on the surface of oil droplets 183
Y. KAWAGUCHI, K. MATSUKAWA & Y. ISHIGAMI (Japan)

How brittle are gels? 189
C. G. OATES (Singapore), P. W. LUCAS (Hong Kong) & W. P. LEE (Singapore)

Enzymic and chemical degradation of some industrial pectins 195
T. P. KRAVTCHENKO, M. PENCI, A. G. J. VORAGEN & W. PILNIK (The Netherlands)

Effect of cations on heat degradation of chelator-soluble carrot pectin 207
T. SAJJAANANTAKUL, J. P. VAN BUREN & D. L. DOWNING (USA)

Water-soluble yellow mustard (*Sinapis alba* L.) polysaccharides: partial characterization, molecular size distribution and rheological properties 215
W. CUI, N. A. M. ESKIN & C. G. BILIADERIS (Canada)

Bibliography on carbohydrate polymers 227

Book reviews 237

Number 4

Preparation and biodegradability of chitin derivatives having mercapto groups 239
K. KURITA, H. YOSHINO, S.-I. NISHIMURA & S. ISHII (Japan)

A chemical approach to the quantitative determination of carboxymethyl cellulose in industrial samples 247
E. H. M. MELO (Brazil) & J. F. KENNEDY (UK)

Rheology and fracture of mixed ι- and κ-carrageenan gels: Two-step gelation 253
A. PARKER, G. BRIGAND, C. MINIOU, A. TRESPOEY & P. VALLEE (France)

A new approach for estimating the crosslink density of covalently crosslinked ionic polysaccharide gels 263
S. T. MOE, A. ELGSAETER, G. SKJÅK-BRÆK & O. SMIDSRØD (Norway)

The role of the structure on the molecular size and conformation of (1–4) and (1–6) linked polysaccharide 269
L. TAO & N. K. MATHESON (Australia)

Preparation of low-molecular-weight chitosan using phosphoric acid 279
M. HASEGAWA, A. ISOGAI & F. ONABE (Japan)

A new chromatographic procedure for separation of typical λ-type molecular species from commercial λ-carageenan . . 285
T. YAMADA, A. OGAMO & Y. NAKAGAWA (Japan)

Thermal properties of polysaccharides at low moisture: 1—An endothermic melting process and water–carbohydrate interactions 291
I. A. M. APPELQVIST, D. COOKE, M. J. GIDLEY & S. J. LANE (UK)

Bibliography on carbohydrate polymers 301

Book reviews 315
